NURSES MAINTAINED

GENERAL INFORMATION

The Presbyterian Hospital of the City of Chicago, established in 1883 as a general hospital, now has a capacity of 378 beds, and a daily average census in 1938 of 308. Care is given to children and adult persons ill with all types of disorders except those of psychiatric and communicable diseases.

The School of Nursing was organized in 1903 by the Hospital Board of Managers with Miss M. Helena McMillan as Director. Her able leadership continued until her retirement in 1938. From the beginning the School has maintained an eight-hour day for student nurses, a six month Preliminary Course, and graduation from High School as a prerequisite to admission. An affiliation with the Rush Medical College of the University of Chicago and assignment of the students for nursing practice in the Presbyterian Hospital, assures for them instruction by the faculty and staff of those institutions, as well as the nurse members of the School faculty.

THE OBJECTIVE

The curriculum of the School does not offer preparation for specialization in any one field of nursing. It endeavors to provide the student with the basic professional education necessary to the practice of nursing in the home, the hospital, or the community, and with the broad foundation on which advanced study may be built. The fact that many of the fifteen hundred and three nurses who have been granted diplomas up to October 1, 1939, are now holding responsible positions all over the world, bears testimony to the successful accomplishment of these efforts in the past.

The School of Nursing has been registered with the Board of Regents of the University of New York since 1905 and, as an initial member, a member of the Central Council for Nursing Education since 1920.

EDUCATIONAL FACILITIES

The Presbyterian Hospital offers excellent experience in medical, surgical, gynecological, obstetrical, and children's nursing while its private service prepares nurses to meet the problems of private duty nursing.

Graduate nurses instruct and supervise all student assignments in the hospital wards; the medical staff of the Presbyterian Hospital and the Faculty of Rush Medical College of the University of Chicago instruct in the classroom, at the bedside, and in the many clinics of the college which are open to nursing students.

Informal parties or dances may be held upon request of members of the household. Pianos and radios add to the interest of the student life in the Sprague Home, with tennis and frequent picnic parties held in the summer.

RELIGIOUS OPPORTUNITIES

Because the School is located in a large city, many opportunities are available to the student to enjoy the cultural, recreational and stimulating advantages of such a community.

Students are always welcome at the Sunday morning service held by the Chaplain in the Chapel of the Hospital.

The many churches of various denominations in the neighborhood of the School give ample opportunity to students to make church affiliations and to attend regularly. In-coming students who are already church members should bring their letters and identify themselves with local congregations.

ADMISSION REQUIREMENTS

General Requirements. Applicants must be in good health, of good moral character and personality, and between the ages of 19 and 30 years.

In order to meet the requirements of New York, in which State the School is registered, candidates for entrance must be citizens of the United States or must have declared their intention of becoming naturalized.

Academic Requirements. Graduation from an accredited high school is required by the Law of Illinois. The School of Nursing requires that the applicant rank in the upper third of her High School class. At least two years of study on the college level is recommended to applicants. The selection of courses which contribute to the preparation for nursing should be kept in mind in planning the High School and college program. It is desirable that all students complete a course in chemistry previous to their admission to the School.

METHOD OF APPLICATION

Classes are admitted to the School of Nursing on October 1 and March 1. An applicant for admission should proceed through the following steps:

1. Fill out the necessary application blanks in detail. Blanks may be obtained from the Director of the School of Nursing, Presbyterian Hospital, Chicago.

2. Have a physician fill out the blank certifying physical soundness. It is of marked importance that the physical examination be performed with care in order to avoid disqualification at the subsequent examination given by the School physician.

Obtain a certificate of successful small pox vaccination within the last two years or of two unsuccessful inoculations following an earlier scar. A certificate of prophylactic typhoid inoculations must also be secured.

A like statement of the condition of the teeth of the applicant must be obtained; necessary dental work should be completed before admission.

If the applicant wears or has worn glasses, or has other eye disorders, the condition of her eyes and fit of her glasses should be checked.

3. Obtain a transcript of study from the high school of which she is a graduate.

If the applicant has had college work, she should obtain an authorized statement of her college credits.

- 4. Write a letter in her own handwriting telling something of her home life and of any occupation she has followed previous to her application for admission to the School of Nursing.
- 5. Secure a Qualifying Certificate, obtained from the Department of Registration and Education, Springfield, Illinois, and send to the School.

REQUIREMENTS IN COURSE

Students are advanced from one class to the next only upon satisfactory completion of the work of each term. The record considered includes personal qualifications, thoroughness in work, both in hospital practice and class room, physical ability to carry the work, professional standards. Students who fail to make satisfactory grades in more than two subjects, show themselves lacking in personal qualities which give promise of success, or who are unable to meet the educational demands of nursing in the Presbyterian Hospital are withdrawn from the school. At the discretion of the faculty students who have failed to make a satisfactory grade in one subject may be permitted to repeat that subject. Those who have failed in two subjects may request permission to repeat the term. This will require repetition of the hospital practice work, thus lengthening the course by one term.

As the Department of Registration and Education of Illinois will

not sanction time credit and as a number of states will not allow nurses with a shortened course to register in those states, all students must take the entire 3 year course to be granted diplomas of the school.

FEES AND EXPENSES

A registration fee of ten dollars is paid at the time the candidate is given an appointment. Should she fail to enter at the selected time, this fee is not returned.

The matriculation fee is fifty dollars, half of which is paid upon entrance, the remaining twenty-five dollars three months later, none of which is refunded.

Text books for the entire course are estimated to cost not over forty dollars, and uniforms from seventy-five to ninety dollars. Cost of text books and uniforms is borne throughout the course by the student.

There is no opportunity for students to earn money in the School and each should be assured of a monthly allowance of from five to ten dollars above the amount needed for text books and uniforms.

Board, room and a reasonable amount of laundry are provided throughout the three years.

FINANCIAL ASSISTANCE

The Woman's Board grants small monthly loans to students recommended by the Director of the School. At least six months residence is necessary, with a record of general fitness, before a loan may be permitted. This is to be repaid, without interest, within two years after graduation or should the student fail to graduate, at as early a period as she can arrange.

The Woman's Board also grants, after six months' residence, upon recommendation of the Director of the School and of the Finance Committee of the Woman's Board, an allowance of ten dollars a month to young women preparing for the mission field and who have been approved by the Mission Board under which they expect to serve, preference being given to candidates for the Presbyterian Board of Missions. This money is not returned unless the recipient fails to complete her course in the School of Nursing or to carry out her intention of undertaking work in the foreign field.

A limited number of other loans are also available for candidates presenting outstanding qualifications for the nursing field.

RESIDENCE

Students of the School live in the Sprague Home, a fireproof building opposite to and connected by subway with the Presbyterian Hospital. Bed rooms, dining, recreation, and reception rooms are comfortable and cheerful, allowing a pleasant home life with opportunity for the students to receive their friends.

All bed rooms are fully furnished.

The kitchen and dining room, located in the Sprague Home, are under the charge of a dietitian, and meals are planned to meet the needs of its residents.

The use of the roof of the Home during hot weather helps to make the summer more pleasant.

Students are expected to comply with dormitory regulations which are made for the welfare of all.

Several members of the faculty live in the Residence. It is the aim of the school to give such general supervision as seems wise for young women away from home, without subjecting them to unnecessary restraint.

The address of the Sprague Home, the Nurses' Residence, is 1750 West Congress Street, between Hermitage Avenue and Wood Street, and may be reached by any of the trains of the Metropolitan Elevated Railway, the Marshfield Avenue station of which is three blocks east of the Home; by the Ogden Avenue, Van Buren, and Harrison Street electric lines, which cross Wood Street one block from the Home.

The telephone number is Seeley 5153. Address all correspondence to the Director of the School of Nursing, 1750 West Congress Street, or the Presbyterian Hospital, Chicago.

The friends of the students are privileged to call on them between 7 a. m. and 10 p. m. and are requested to make either personal or telephone calls at the Sprague Home rather than the Hospital.

REQUIREMENTS FOR GRADUATION

Students who have met the requirements for admission, who have completed the prescribed course of instruction, and who have passed the required examinations, will, upon recommendation of the faculty of the School, be eligible for the diploma granted by the Board of Managers of the Presbyterian Hospital.

STATE REGISTRATION

As the School is registered in the State of Illinois and by the Regents of the University of the State of New York, upon the successful completion of the course, graduates are eligible for admission to reciprocal registration or to the examination for registration in these and other states under the conditions stipulated by the laws of that state.

THE ALUMNAE ASSOCIATION

The Alumnae Association, organized in 1906, is a means of mutual benefit and pleasure to the graduates of the School. By joining the Alumnae Association graduates are eligible for membership in the District, State, and National nursing organizations as also in the nursing service of the National Red Cross. Use of the endowed room in the Presbyterian Hospital, when ill, is another of the privileges open to those graduates who meet all the conditions of membership.

A Sick Benefit and Relief Fund has been started, through subscription of each member of the Alumnae, to be available, should occasion arise, for any member in good standing.

Since 1920, November 11 of each year is held by the School as Home Coming day for its graduates, and all are invited to take part in the reunion.

In March, 1920, the Alumnae Association voted an annual subscription of twenty-five dollars, later increased in amount, for the purpose of maintaining professional magazines in the Library of the School.

In September, 1921, the Alumnae Association decided to enlarge the endowment of the School of Nursing, started by Mr. Nelson B. Holden in 1909, and with the assistance of the Woman's Board and other friends of the Institution has succeeded in bringing the fund to over \$63,000.00.

OPPORTUNITIES

Opportunities open to the graduates of the School include: private duty nursing; public health nursing in its many forms; appointments in the Red Cross, the Army or Navy Nursing Service; positions as staff nurses, head nurses, supervisors, instructors, and administrators in schools of nursing and hospitals; as teachers of nursing and health in schools and colleges; and other branches of work which are continually being opened to the graduate nurse.

DESCRIPTION OF COURSES

Anatomy and Physiology

Anatomy. Study of the structure of cells, tissues, organs and systems of the body in relation to nursing principles and practice. Lectures, laboratory and recitation—60 hours. First year, first term.

Instructor—Dr. Rossi

Assistant Instructor—Miss DenHerder

Physiology. Study of the function of the cells and tissues and of the organs and systems of the body. Lectures, laboratory and recitation—60 hours. First year, second term.

Instructor—Dr. Rossi

Assistant Instructor—Miss DenHerder

Bacteriology

Bacteriology. Study of bacteria and other micro-organisms as to types, conditions for growth and substances affecting growth. Special emphasis is given to bacteria as related to disease production and their role in immunity reactions. Lectures, laboratory and recitations—60 hours. First year, second term.

Instructor—Dr. Pickering

Assistant Instructor—Miss DenHerder

Chemistry

Chemistry. Presentation of the fundamental principles of organic and inorganic chemistry; introduction of the student to laboratory methods of observation and study; emphasis upon content of this field essential to nursing. Lectures, laboratory, recitations—60 hours. First year, first term.

Instructor—Mr. Starekow

Assistant Instructor—Miss DenHerder

Dietetics

Elements of Nutrition and Cookery. Study of food principles and of foods; review of processes of digestion, absorption and metabolism; working out of dietary studies, normal nutritional requirements and planning of meals; presentation of principles of cooking; preparation and service of individual portions of food used in patients' diets; prep-

aration and service of breakfast, dinner and supper trays for normal adults and children. Lectures, laboratory and recitations—50 hours. First year, first and second terms.

Instructor—Miss Billyeald

Diet Therapy. Study of the use of diet in the treatment of disease. Corrective diets are planned to meet nutritional requirements of patients with various diseases; studies are made of such therapeutic use of diets in the care of patients. Lectures and laboratory—15 hours. First year, third term.

Instructor—Miss Billyeald

Senior Dietetics. A review of the principles of dietetics, of the normal diet and of diets for special disease conditions. Lectures—8 hours. Senior year.

Instructor—Miss Hunzicker

Hygiene

Personal Hygiene. Study of rules which govern physical and mental health of the individual, the practises of personal hygiene, and the functions of the nurse as a health teacher. Lectures and recitation—20 hours. First year, first term.

Instructor—Miss Van Horn

Public Hygiene and Sanitation. Presentation of the practical knowledge of the methods used to protect the health of individuals and communities. Emphasis is given to the opportunity for the teaching of health by the nurse. Lectures—15 hours. First year, third term.

Instructor—Miss Van Horn

Physical Education. Simple group gymnastic exercises which will develop the muscles of the back, feet, and other muscles needed to keep the nurse physically fit for her professional work. 15 hours. First year, first term.

Instructor—Miss Carlson

Materia Medica

Elementary Materia Medica. Study of various preparations of drugs, their classifications, administration, method of weighing and measuring,

Ophthamology and Nursing. Review of anatomy and physiology of the eye; presentation of possible injuries and diseases relating to the eye, their treatment and the nursing care of patients with these conditions—5 hours. Third year.

Instructors—Dr. Fowler and Mrs. McNeill

Otolaryngology and Nursing. Review of anatomy and physiology of ear, nose, and throat; presentation of diseases of these organs, their treatment and the nursing care of patients with these disorders—12 hours. Third year.

Instructors—Dr. Shambaugh Jr, and Mrs. McNeill

Communicable Diseases and Nursing. Presentation of principles underlying prevention and control of communicable diseases; discussion of symptoms, course, and complications of principal communicable diseases and their nursing care. Lectures and recitation—30 hours. Second year.

Instructors—Dr. Shafer, Dr. Hunt and Mrs. Raymon

Dermatology and Nursing. Review of function and structure of the skin; presentation of some of the more common diseases of the skin and treatments used; discussion of venereal diseases; presentation of nursing care of patients ill with these diseases. Lectures and recitations—10 hours. Second year.

Instructors—Dr. Mitchell and Mrs. Reeves

Advanced Surgical Nursing. Presentation of surgical conditions in specialized fields and the nursing care of patients with those conditions. Urology and neuro-surgery are the subjects represented; review and discussion of general surgical diseases. Lectures, recitation and demonstration—32 hours. Third year.

Instructors—Drs. Herbst, Verbrugghen, Fowler, Shambaugh, Jr., and Mrs. McNeill

Advanced Medical Nursing. Review and discussion of special problems in the nursing care of patients with medical diseases. Lecture and recitation—16 hours. Third year.

Instructors—Members of the clinical staff of Presbyterian Hospital and Department of Medicine, Rush Medical College and Mrs. Reeves.

Massage. Demonstration of general massage; discussion of this form of treatment as a therapeutic agent; practice under supervision, in the physiotherapy department of the hospital—16 hours. First year.

Instructors—Dr. Kobak, Miss Hardy and Miss Datzman

First Aid. Presentation of most common methods of bandaging, application of splints; approved procedures followed in case of accidents and emergencies. Lectures and recitation—24 hours. Third year.

Instructor—Representative of Red Cross

Psychology

Elementary Psychology. Presentation of the causes of human conduct as they aid in understanding everyday problems of normal individuals, and the problems of the sick. Lectures and recitations—30 hours. First year, third term.

Instructors—Dr. Beverly, Mrs. Smith and Mrs. Reeves

Psychiatric Diseases. Review of the anatomy and physiology of the nervous system; presentation of etiology, symptoms, treatment, and preventive measures in the care of major and minor psychoneuroses. Lectures and recitations—20 hours. Third year.

Instructors—Dr. Avery and Mrs. Reeves.

Occupational Therapy. Presentation of selected craft processes; group discussion of use of occupational work as a therapy; clinical experience in the shop with patients. Laboratory—54 hours. First year, first term.

Instructor—Miss Brainerd

Drefes al Social Studies

Ethics. Presentation of questions pertaining to the ethical relations of the student to the school and its personnel, to the patient, to the hospital, to the community—15 hours. First year, first term.

Instructor—Miss Rogers

History of Nursing. Study of the development of nursing from ancient to modern times, emphasizing the origin and development of nursing traditions and depiction of the nursing figures of early and recent history. Lectures and recitations—30 hours. First year, first and second term.

Instructor—Miss Van Horn

Modern Social Problems and Agencies. Introduction to problems of social welfare, their causes and resources available for dealing with those problems in such a way as to bring greatest benefit to the community. Lectures—24 hours. Second year.

Instructor selected

Professional Studies of Nursing

Survey of the Nursing Field. Discussion of the various fields of nursing which are open to the graduate nurse; the qualifications, advantages, and problems of each. Lectures and recitations—24 hours. Second year.

Instructor—Miss Rogers and Special Lecturers.

Professional Problems. Discussion of current problems and developments of the nursing profession; interpretation of the responsibilities and opportunities of the individual nurse as a member of her profession. Lectures and recitations—24 hours. Third year.

Instructor—Miss Rogers

Public Health. Presentation of scope and major problems in the field of community health; emphasis upon the work of the nurse as a teacher of health. Lectures—24 hours. Third year.

Instructors selected by sponsor of course, Chicago Tuberculosis Institute.

Clinical Schedule

Preliminary 6 months
Medical Nursing
Surgical Nursing
Operating Room 3 months
Pediatrics 3 months
Diet Kitchen
Dispensary
Maternity 4 months
Affiliations 3 months
Vacation 3 months
Private At.
Total

The clinical assignments are made to correspond as far as possible to the class work carried by the students at the time. Work of the first year is confined to general medical and surgical wards; in the second year to the special services of obstetrics, pediatrics and operating room; and in the third year to advanced services and affiliations.

1939 GRADUATING CLASS

Adams, Mary Elizabeth, A.B. (Hanover College, 1936)
ALLISON, MARY LOUELLA, A.B. (Wheaton College, 1935)
Brown, Lois Marjorie, B.A. (Concordia College, 1934)Moorhead, Minnesota
